

DDL19

→ drug delivery to the lungs 19

**Edinburgh 2008
10th-12th December**

For the 4th year running DDL will be returning to Edinburgh International Conference Centre. As ever, the conference will be comprised of a series of themed sessions with a combination of invited and submitted lecture papers all given by experts in the field of inhalation therapy. DDL also always attracts a diverse and extensive selection of poster presentations and the exhibition space is always packed to capacity with stands from suppliers, instrument manufacturers, contract research organizations as well as large and small pharma. DDL is the premier European conference for those with a heavy technical interest in the development of inhalation therapies.

CALL FOR PAPERS

Initial abstract submission deadline – Friday 29th August
Email Submission to admin@aerosol-soc.org.uk
Abstract instructions can be found at www.ddl-conference.org.uk

For 2008 we are proud to introduce a new conference format. Now spanning 3 days, the programme should provide enhanced networking opportunities, travel flexibility and an improved ability for delegates to attend all sessions.

PROGRAMME

Wednesday 10th December

11.00am Registration
12.00 – 13.30pm Networking buffet lunch
13.30 – 18.30pm Conference

Thursday 11th December

Friday 12th December

08.30am Registration
09.00 – 13.00pm Conference
13.00pm Conference Closes

The organisers of DDL19 are expecting to provide themed lecture sessions on the following topics:

- Advances in the development of biological and other new therapies for the treatment of respiratory disease
- Novel formulations and delivery platforms
- The evolution of the interface between universities and industry: How academia contributes to the development of inhaled products
- Materials Science and Nanotechnology: Why plastics and particles matter so much
- Now that QbD is firmly in the spotlight for formulation and manufacturing, it's time to bring analytical science into the fold.

SPONSORSHIP

Limited exhibition/sponsorship opportunities remain please contact Sheila on 01275 849019 to discuss further.
